

MONTANA SCHOOL
for the Deaf & the Blind

Montana School for the Deaf and the Blind

Our Community

Montana is known as Big Sky Country and as The Treasure State. As you drive across the state, you will see snow-topped mountains, quirky towns, endless fields, and majestic animals. Montana is home to both Glacier National Park and Yellowstone National Park, 7 Indian Reservations and one newly recognized tribe, many hot springs, and many historic battlefields.

MSDB's campus is located in Great Falls, which is known for the huge waterfalls that Lewis and Clark had to portage as they explored the West. Great Falls is home to the world's shortest river and the largest freshwater spring in the United States. Residents can enjoy over 40 miles of the River's Edge Trail, visit several art and history museums, and enjoy many city parks including a water park, a dog park, and a skate park. There is something here for everyone.

Opportunities for Our Students

- Mainstreaming with partner schools in Great Falls
- After-school activities, clubs, and events
- Sports through co-op agreements
- Travel home once a month for residential students
- Access to role models and like-peers
- Benefit from direct accessible instruction

About Us

- MSDB offers comprehensive learning and growing opportunities for students from birth through age 21 who are deaf, hard of hearing, blind, visually impaired, or deafblind throughout the state of Montana.
- Our 10-acre campus houses both our Educational program and a Residential program for students who live outside of the Great Falls area. On campus, we serve approximately 50 students with about 20 living oncampus during the school year.
- Our Outreach program serves as a statewide resource for approximately 750-800 students across the state by working with families and providing consultative services to schools and districts.
- MSDB offers innovative weekend events for families and students. These events take place both on campus and in regions across Montana. These opportunities offer enriching learning activities and peer support to students and families.
- MSDB serves the whole student. We believe in using the tools, communication strategies, and languages that best meet each student's needs. This could include ASL, English, amplification devices, access technology, braille, Nemeth, tactile materials, large print materials, and any other support students need.

Our Staff

- Many teachers are certified in Education or Special Education as well as specialized in Deaf Education or Teaching Students with Visual Impairments.
- Residential staff are trained as Residential Child and Youth Care Professionals (RCYCP).
- Staff members are continually engaged in professional development opportunities to provide the best learning environments for our students.
